Revision 2 to the ISFSI-Only Emergency Plan and Associated Changes to
Emergency Plan Implementing Procedures
San Onofre Nuclear Generating Station (SONGS), Units 1, 2, and 3, and the
Independent Spent Fuel Storage Installation**

Dear Sir or Madam:

Provided as Enclosures to this letter are updates to the San Onofre Nuclear Generating Station (SONGS) ISFSI-Only Emergency Plan (IOEP) and Emergency Plan Implementing Procedures (EPIPs). These updates are submitted as required by 10 CFR 50.54(q) and 10 CFR 72.44(f).

On February 1, 2022, in accordance with 10 CFR 50.54(q), SCE implemented Revision 2 of the IOEP (SONGS document IOEP-1) as well as the SONGS ISFSI-only Emergency Action Level (EAL) Technical Basis Manual (SONGS document IOEP-2). SCE has determined that the changes in Revision 2 of IOEP-1 and IOEP-2 do not reduce the effectiveness of the ISFSI-Only Emergency Plan or ISFSI-Only Emergency Plan Implementing Procedures, and the ISFSI-Only Emergency Plan, as changed, continues to meet the standards of 10 CFR 50.47(b) and the requirements of 10 CFR 50 Appendix E, as exempted.

Enclosure 1 of this letter transmits Revision 2 of the SONGS ISFSI-Only Emergency Plan (IOEP-1) effective February 1, 2022.

Enclosure 2 transmits Revision 2 of the SONGS ISFSI-Only Emergency Action Level Technical Bases Manual (IOEP-2) effective February 1, 2022.

Enclosure 3 provides a summary of the analysis supporting the changes Revision 2 of IOEP-1 and IOEP-2.

In addition, on February 1, 2022, SCE implemented revised EPIPs as follows:

Procedure	Rev.	Effective Date
EPP-1, Emergency Response	2	February 1, 2022
EPP-2, Emergency Preparedness Program Maintenance	2	February 1, 2022

AX45
NM5526
NRR
NM55

Enclosure 4 provides a copy of these revised EIPs.

Enclosure 5 provides a summary of analysis of the EPIP changes.

There are no commitments contained in this letter or its Enclosures.

If you have any questions, please contact Ms. Kelli Gallion-Sholler, Emergency Planning Manager, at (949) 368-7756.

Sincerely,

For
A. Bates
