September 27, 2023

Mr. Bo Pham
Director, Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Request for an Extension of Comment Period on Proposed Revision to Standard Review Plan Section 15.0, "Introduction - Transient and Accident Analyses," Docket ID NRC-2023-0079

Project Number: 689

Dear Mr. Pham:

The Nuclear Energy Institute's (NEI) and its members request an extension to the period of seeking public comments on the Proposed Revision to Standard Review Plan Section 15.0, "Introduction - Transient and Accident Analyses." Providing high quality responses to the Standard Review Plan revision within the 60-day comment period will be challenging for industry and other interested parties. NEI respectfully requests extending the comment period by 30 days to November 1st. This extension will provide sufficient time for stakeholders to coordinate and provide comments on this important topic.

Thank you for your consideration of this request. We respectfully request a response to this extension request by September 29. Please contact me if you have any questions or require additional information.

Sincerely,

Stew Yuen
Senior Project Manager
Engineering and Risk
