ENCLOSURE A

**Office of the Chief Information Officer
Items of Interest
Week Ending March 8, 2024**

**Freedom of Information Act (FOIA) and Privacy Act (PA) Requests and Appeals Received
During the Period of March 4 – March 8, as submitted by requester.**

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2024-000111	Lokvancic, Mak	-	Requester is seeking to obtain Boiling Water Reactor Type 6 (BWR/6) Reactor Operator (RO) and Senior Reactor Operator (SRO) training documents. Additionally, the Clinton Nuclear Station Control Board Arrangement documents.	03/04/2024
FOIA-2024-000112	Nelson, Scott	Oak Ridge National Laboratory	Requester seeking Access to Reg Guide 5.81.	03/06/2024
FOIA-2024-000113	Triplett Jr, Dwayne		Send grants, scholarships, sponsorships, all Treasury resources, UFO programs, bigfoot sightings, lochness monster sightings, January 6 birthday resources. Adoption resources. All previous holiday celebration vendors. Starlink and all available satellite maps. All supplier resources, all mailing address resources. All polygraph programs, all military program names. All international programs. All united kingdom charities. All USA charities. All cash in mind foundations. All prize foundations. Unofficial Royal resources. All agencies' transcripts worldwide., certifications resources. Film screener resources. All major media resources.	03/06/2024
FOIA-2024-000114	Knaby, Chris	-	Requester is seeking the following information: 1. Detailed Records Requested: a. Records of my father's employment as a radiological technician, specifically detailing his responsibilities, tasks, and exposure levels during the cleanup efforts after the 1979 nuclear meltdown at Three Mile Island Unit 1. b. Documentation related to the conditions and safety measures in place during the cleanup operation, including any reports on nuclear-waste contaminated water and its potential impact on workers' health.	03/07/2024

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2024-000114 (continued)			<p>c. Records of any studies, reports, or investigations conducted by the Nuclear Regulatory Commission (NRC) or Occupational Safety and Health Administration (OSHA) regarding the long-term health effects on employees who participated in the cleanup activities after the 1979 nuclear meltdown. 2. Comprehensive records of employee health reports from Three Mile Island Nuclear Plant covering the period of my father's employment (1978-present). 3. Any studies, reports, or analyses conducted by the Nuclear Regulatory Commission (NRC) related to the health impacts of prolonged exposure to radiation or involvement in cleanup efforts at nuclear facilities. 4. Documents outlining safety measures, protocols, and protective measures implemented during and after the 1979 Unit 1 meltdown cleanup at Three Mile Island. 5. Any correspondence, communications, or internal discussions within the NRC pertaining to the potential health risks associated with working at the Three Mile Island Nuclear Plant. 6. Employee Health and Safety Data: a. Any available records detailing health monitoring, radiation exposure levels, and safety measures implemented for radiological technicians during the specified timeframe. b. Reports on incidents or accidents involving employees in roles similar to my father's, specifically those who worked in cleanup activities post the 1979 nuclear meltdown. 7. Reports encompassing information on: a. Employee health reports, covering any health-related incidents or conditions.</p>

Notice of Enforcement Discretion request for Seabrook Unit 1

On March 3, 2024, the U.S. Nuclear Regulatory Commission staff verbally approved a Notice of Enforcement Discretion (NOED) request for Seabrook Unit 1 to address a failed reserve auxiliary transformer. The NOED extends the Limiting Condition for Operation (LCO) for 5 days beyond their 72-hour limit that expired on March 4, 2024, at 5:42 a.m. to allow the licensee to submit an emergency license amendment request (LAR). The emergency LAR will request that the 72-hour LCO be extended to 30 days to facilitate a transformer replacement at power.

ENCLOSURE C

**Office of Nuclear Material Safety and Safeguards
Items of Interest
Week Ending March 8, 2024**

**Advance Tribal Notification of Category 1 Quantities of Radioactive Material Shipments:
Proposed Rule; 10 CFR Part 37 [NRC-2022-0191; RIN 3150-AK90]**

On March 8, 2024, the U.S. Nuclear Regulatory Commission (NRC) published a proposed rule in the *Federal Register* ([89 FR 16701](#)) proposing to amend its regulations to require NRC and Agreement State licensees to provide advance notification to participating federally recognized Tribal governments regarding shipments of category 1 quantities of radioactive material that pass within or across their reservation boundaries. The proposed rule would resolve a petition for rulemaking (PRM-37-2) requesting changes to the regulations to include advance Tribal notification requirements similar to existing State notification requirements. The NRC will hold a public meeting during the public comment period to promote full understanding of the proposed rule and facilitate public comments. Comments are requested by May 22, 2024.
