SUBJECT: STAFF REQUIREMENTS - MEETING WITH ADVISORY COMMITTEE ON REACTOR SAFEGUARDS (ACRS), 2:00 P.M., WEDNESDAY, JULY 10, 2002, COMMISSIONERS' CONFERENCE ROOM, ONE WHITE FLINT NORTH, ROCKVILLE, MARYLAND (OPEN TO PUBLIC ATTENDANCE)

The Commission was briefed by members of the ACRS on the following topics:

- Core Power Uprates/License Renewal Activities/Future ACRS Activities
- Advanced Reactors
- Risk-Informing Special Treatment Requirements of 10 CFR Part 50
- Pressurized Thermal Shock (PTS) Technical Basis Reevaluation

The ACRS should consider providing a recommendation as to how license renewal guidance documentation should be updated to reflect supporting information, particularly with regard to time-limited aging analyses, that should, as a minimum, be included in license renewal applications to maximize the efficiency of the review process and minimize requests for additional information.
