

April 9, 2009

The Honorable Daniel O. Hill
Acting Under Secretary for Industry and Security
U.S. Department of Commerce
1401 Constitution Avenue, NW
Washington, D.C. 20230

Dear Mr. Hill:

As you are aware, the United States Government is obligated under the "Protocol Additional to the Agreement between the United States and the International Atomic Energy Agency for the Application of Safeguards in the United States" (the Additional Protocol) to provide to the International Atomic Energy Agency (IAEA) an annual national declaration. This declaration will be developed from information received from the Departments of Commerce (DOC), Energy and Defense, and the Nuclear Regulatory Commission (NRC). I am pleased to provide a copy of the NRC's United States Additional Protocol Vetting Record confirming the NRC licensees' information that will be consolidated by the DOC with other United States agency input for the United States declaration to the IAEA. The NRC previously provided an electronic version of the vetting record to the DOC/BIS on March 27, 2009.

Should you have questions about the data submitted by the NRC, please contact Mr. Michael F. Weber, Director, Office of Nuclear Material Safety and Safeguards at 301-492-3557.

Sincerely,

/RA/

Dale E. Klein

Enclosure: As stated

cc: Ambassador Stephen D. Mull
Office of the Under Secretary for Arms Control
and International Security
U.S. Department of State

U.S. Additional Protocol Interagency Vetting Record

- Agency's name : U. S. Nuclear Regulatory Commission
- Provide the name of the representative(s) who is/are submitting this record on behalf of the above named agency:
Michael F. Weber, Director
Office of Nuclear Material Safety and Safeguards
- Please select YES for each line item/activity per declaration which will be allowed to remain on the initial U.S. AP declaration.
- Please select NO for each line item/activity that is to be excluded on the basis of national security significance.

Instructional Information

This document is in pdf fillable format.

There are 18 declarations included for your review, they are numbered 2-19 (declaration number one is the first quarterly export report which is due May 30, 2009).

Declarations 3-13 are sites and require only one vote per site rather than line item, as the line items under each of those declarations are individual buildings on the site.

Declaration number 13 is a place holder for Turkey Point – 4, which is a power reactor that has yet to submit their information. It is my understanding that they will be submitting their information in the next 15-30 days.

No vote is required for declaration 17 since the U.S. has nothing to declare.

Declaration 15, lines 1-21 are those mines that have been abandoned since the U.S. signed the AP 6/12/98. The information was obtained from MSHA as it was reported to them by the mine holders.

Please provide your agency's response to Jill Shepherd by email (jshepher@bis.doc.gov) on or before March 31, 2009.
